The Republican contest for the judicial nomination was complicated further when former Judge Frank W. Geiger, Springfield, dropped his name into the hat. Two Democratic candidates, Harry L. Conn, Van Wert, and Judge N. Craig McBride, Hillsboro, are unopposed.

Former Senator John F. Burce, Elyria, once a candidate for the nomination for governor, entered his name for lieutenant governor.

The fighting for control of the Republican organization extended to Franklin county, where a tremendous effort is under way to depose Harry C. Arnold, present chairman, and his supporters.

Judge Harry C. Smith, of Columbus, former secretary of state, entered the lists for state central committeeman from the Twelfth district against Colonel W. H. Duffy, Columbus, and the contests are to be carried on in every local precinct as well.

WELFARE WORK IS PLANNED BY ASSOCIATION

The first step in the Child Welfare work planned by the Parent-Teachers' association of Pickaway township school for the coming school year was taken at the Round-Up clinic which was held at the centralized school building Thursday afternoon under the direction of Dr. H. D. Jackson assisted by Dr. R. E. Lightner, Dr. C. G. Stewart, Dr. G. S. Corne, Dr. G. L. Hitler and his assistant, Miss Anderson.

Altho physical examination was given to twenty-one of the thirty-five children of pre-school age, of those who will enter the first grade next September. A report was given each child which he will take to his family physician and be given the necessary treatment for all remedial defects.

Extensive and careful studies of thousands of school children have shown that thousands of them begin their school life each year with physical defects which seriously interfere with school work. In order to remedy this, the National Congress of Parents and Teachers is making this nationwide health campaign.

The Parent-Teachers' association of Pickaway township hopes in the future to make it general thruout the school, but for the first attempt considered only the pre-school child.

Thru the efforts of Miss Katherine McKenzie, chairman of the campaign committee, assisted by Miss Nettie Rader, Mrs. Mary Boggs, Mrs. J. L. Young, Mrs. H. D. Jackson, Mrs. Shirley Dresbach, Mrs. Samuel McKenzie, Mrs. Ray Phillips, Mrs. George Jury, Mrs. William Anderson and Mrs. Austin Wilson, the attending physicians and dentists the clinic was a decided success.

U. S. CIRCUIT COURT OF APPEALS

Reversed Judgment of Lower Court In Liquor Case.

Cincinnati, June 10.—(UP.)—The conviction of Sheriff Paul W. Burkhardt, of Williams county, on charges of conspiring to violate the national prohibition act, was reversed by the United States Court of Appeals here today.

Sheriff Burkhardt was convicted with 22 other persons.

"Burkhardt was not charged with the duty of enforcing federal laws," the court said in an opinion. "But it was his duty as a county officer to prevent transportation of liquor. Mere fail-

ure to stop this transportation did not make him a party to the conspiracy or to an infringement on Federal laws."

Sheriff Burkhardt was convicted of keeping "hands-off" while a rum-running ring transported large stocks of liquor through Williams county. The court's decision reversed that of Federal Judge John M. Killits who, the circuit court held, should have dismissed the charge.

Story of Lotteries

The lotteries were first heard of in England in Elizabeth's reign (1559), and were deemed legal until an act of William III declared them "public nuisance." But this act failed to abolish them.

SUICIDE EPIDEMIC SWEEPING GERMANY

Economic Depression Given as the Cause.

Berlin.—A grim and mysterious epidemic of suicides is sweeping Germany. Many of the leading dailies now carry a regular section tucked away in an obscure corner of the paper and bearing the caption: "Die Selbstmord-Epidemie"—the epidemic of self-destruction. In this the daily list of suicides is given, many of them receiving only a line. The more sensational cases get a short notice of ten to twenty lines. One has the impression that many cases are not reported at all, or, at least, not published. Epidemics grow through imitation, and this the authorities wish to avoid.

The causes of the abnormal rate of suicides in present-day Germany are, no doubt, the widespread economic depression, the increased tempo of modern life, the depletion of nerve force through the war and the tremendous financial and personal losses the war brought about, the shaken condition of the social structure, and a general fear of life which has overtaken thousands. All these factors are augmented, in the case of the German, by his tendency to brood, to ponder the riddles of existence, to regard life and its trials and problems from the angle of some particular philosophy of Weltanschauung.

Where Pessimism Lingers.

When the man's philosophy goes to pieces upon the rocks of experience, the man himself often goes to pieces likewise, and the unfortunate human creature is driven to the last positive act of which he is capable—the act of self-annihilation. It is also often in the nature of a "grand gesture"—at one blow he destroys the whole visible and palpable world—for himself.

Suicide has at times even a romantic tinge in Germany—sentimental remnants from the days of Goethe's "Sorrows of Werther," of philosophical pessimism from the works of Schopenhauer or Von Hartmann. In no other country are young lovers so prone to end their lives if parental permission to marry is not forthcoming. In no other country is the proportion of child suicides so great. These cases of juvenile self-destruction mania usually arise from fear of punishment at home or at school, fear of disgrace, or morbid conceptions of honor connected with failure to pass examinations at school.

But it is not only the poor, the distraught, the lovelorn or the inexperienced who lay violent hands upon themselves in the German republic. The list of prominent, well-to-do, apparently happy people who have recently ended their lives in Germany is appalling. To mention but a few cases: there is Paul Cassirer, the art dealer, husband of the famous German actress Tilla Durrieux, who shot himself in the lawyer's office, whither he had gone with his wife and daughter to arrange a divorce settlement; "Blumen Rothe," a famous florist of Berlin, whose body was found, long after he had vanished, under pines in the forest of Grunewald.

Plunged Into Ice Cavern.

There is also the mystery of the death of Jurievskaja, a beautiful and celebrated star of the National opera at Berlin, in private life Frau Bremer, who went to Zermatt, in Switzerland, some months ago and threw herself into the ice-bound ravine under the lofty "Devil's bridge," apparently without the slightest cause, her body coming to light a few weeks ago after the melting of the ice. There is the case of Carl Hau, once a well-known lawyer, who had been accused of murdering his mother-in-law and sentenced to life imprisonment twenty years ago. He was recently pardoned and began writing and publishing his prison memoirs in a big Berlin daily. The state attorney of Wurttemberg reopened proceedings against him. Hau fled the country to Italy and threw himself into the sea from a train.

Strange tragedies are of daily occurrence. Day after day the newspaper reader is confronted with such little notices as this: "Suicide of an Aged Married Couple." And then the sordid, inevitable details—the cause for the grim act, often described by one word "nahrungssorgen," food worries.

DOCTORS' CHILDREN IN HIGH POSITIONS

More daughters of physicians are found in successful authorship than in any other line of work, it has been shown by a recent investigation of the careers followed by doctors' children. They are prominent also in fine arts, in philanthropy and humanitarian work, in educational and library work and in literature, in which last they exceed the men in number.

Many sons of doctors are, most naturally, sculptors. There are quite a number of musicians and singers whose fathers were physicians, including Frank and Walter Damosch, Marguerita Sylva, Godowsky, Fritz Scheff, Kreisler and Sophie Braslau. The actors and dramatists are not nearly so numerous; among them are Sir Charles Wyndham, Sol Smith Russell, Sothorn, Augustus Thomas, Elsie De Wolfe and Rachel Crothers.

The list shows very few inventors. Manufacturing and business show few sons of the medical profession, but finance has quite a long list, including 120 bank presidents and heads of 20 insurance companies.

INCREASE RESERVE OFFICERS' INTEREST
General Staff Plans Series of Radio Talks.

Washington.—In an effort to increase the interest of reserve officers of the army and give them some military instruction at home, Lieut.-Col. H. Edmund Bullis, general staff, is seeking the co-operation of several radio broadcasting stations. He believes that he can reach 40,000 reservists, who live in rural communities or at least are out of contact with the regular army, by a series of radio broadcast talks on military subjects, and proposes to establish a small broadcast school next fall.

To start next fall's instruction he is preparing eight ten-minute radio talks to be given by army officers from the stations willing to co-operate. It is desired to give these talks at the same time on the same week day for eight consecutive weeks. The eighth lesson would be in the form of an examination. All reserve officers who send their solutions to the problems to the radio stations will have their papers graded and returned by an army officer designated for this purpose.

The stations and dates of talks will be announced at this summer's training camps by means of official war department bulletins and through the various military publications. Suggestions and offers of co-operation from any radio stations will be gladly received by Lieut.-Col. H. Edmund Bullis, war department, Washington.

Through the courtesy of the program director of WCAP arrangements were made for Colonel Bullis while on an inspection trip to deliver his talk, "What Our Army Does Besides Fight," from fourteen different radio stations.

Passion Music

Passion music is music that endeavors to picture the suffering and death of Christ. The subject has been a great favorite with composers. Probably the greatest masterpiece of this kind is the passion music by Bach. The passion may be said to consist of the seven last words of the Savior on the cross.

When In Doubt Serve Entrees General Rule For Home Managers

IN the game of bridge, where the precept when in doubt is "lead trumps," so in planning a dinner, the rule is "when in doubt, serve an entree."

Home managers often are confronted with the problem of what to do to fill in a vacant place on the menu. Something is needed that is tasty and different, while at the same time, fitting in with the other dishes which form the meal.

What to do, the housewife asks? The answer is serve a "made" dish. The entree or "made" dish, has found a permanent place on the average housewife's bill of fare. The principal question which confronts her in their making is variation. In this regard the following recipes may be of value:

Orange Fritters

1 1/4 cups pastry flour 4 tbsp. evaporated milk diluted with powder
2 tsp. baking powder 7 tbsp. water
1/4 tsp. salt 2 oranges, seedless
1 egg, beaten

Separate oranges into sections. Mix and sift dry ingredients; add diluted milk to well beaten egg. Combine liquid and dry ingredients and beat until smooth, or about two minutes. Dip oranges in fritter batter. Drop into deep, hot fat having a temperature of 360° F. or hot enough to turn a one-inch cube of soft bread a golden color in 60 seconds. About 4 minutes is required to fry fritters.

Oyster Fritters

1 1/4 cups pastry flour 4 tbsp. evaporated milk diluted with powder
2 tsp. baking powder 7 tbsp. oyster liquor
1/4 tsp. salt 1 pint oysters
1 egg Few drops onion juice
Paprika

Mix and sift dry ingredients. Beat eggs and add diluted milk. Combine liquid and dry ingredients and beat until smooth, about two minutes. Drain oysters and chop. Season with onion juice and paprika. Add oysters to batter. Drop by spoonfuls in hot fat having a temperature of 360° F. or hot enough to turn a one inch cube of bread a golden color in 60 seconds. About 5 minutes is required for frying.

Lobster Croquettes

2 cups chopped cooked lobster 1/4 cup evaporated milk diluted with
1/4 tsp. salt 1/2 cup water
1/4 tsp. mustard 2 tbsp. butter
Dash Cayenne 3 tbsp. flour
Egg 1/4 tsp. salt
Bread crumbs
1 cup Tartar sauce

Mix 1/4 tsp. salt, mustard, and cayenne and add them to the lobster meat. Prepare a white sauce of diluted evaporated milk, butter, flour, and 1/2 tsp. salt. Add white sauce to lobster and spread on a platter to cool. Mold mixture into balls, chops, or cutlets. Fry balls in hot fat having a temperature of 360° F., or saute chops or cutlets in hot frying pan. Put a lobster claw or a paper frill in end of each chop or cutlet. Serve with Tartar sauce.

Corn Croquettes

1 1/4 cups drained creamed corn 1 tbsp. grated onion
1/4 cup evaporated milk 1 tsp. lemon juice
1/4 cup water 2 cups soft bread crumbs
1 egg, beaten 2 tsp. salt
1/4 tsp. melted butter 1/4 tsp. pepper
2 tbsp. grated celery

Mix all the ingredients. Shape in balls or cones. Roll in dry bread crumbs, then egg, then crumbs. Fry in deep, hot fat at a temperature of 360° F., or hot enough to turn a one-inch cube of bread a golden color in 60 seconds.

Simple Remedy

Should the voice be lost from the effects of a cold, a simple, pleasant remedy is furnished by beating up the white of an egg, adding to it the juice of one lemon, and sweetening it with white sugar to taste. Take a spoonful from time to time.

OUR FLAG DAY

June 14 is the birthday of the nation's flag. It floats at the tops of tall buildings and is carried at the head of processions. You love it and you promise allegiance to the ideals it stands for.

Sometimes we wonder what there is about a bit of bunting in bright colors to make a people feel that way about it.

The flag is a symbol—a sign. It stands for everything we of America hold dear—ideals of liberty, justice, humanity and loving kindness that every American likes to think inspires his life.

We believe in justice, tempered with mercy. We believe in liberty—liberty of thought, of speech, of written word and self-directed deeds, with a decent regard for the opinions of mankind. We believe in freedom, but no act of ours is true to the standards of American breeding if it strikes at the right of another to be happy and at peace. These are the ideals you salute when you raise your hand in reverence to your flag.

This banner of starry beauty received its baptism of fire at Fort Schuyler, New York, August 3, 1877, during an attack by British and Indians. The flag was made on the spot. Soldiers' shirts furnished the cloth for the white stars and stripes; the red stripes were made from a red petticoat belonging to the wife of one of privates and Captain Swartout's blue cloth coat was used for the blue field. During the long years of its life our country has engaged in a number of wars, yet its flag has never rippled in support of an unworthy cause and has never known defeat. It has no taint of dishonor, and it represents today the mightiest nation in history. Flag day is observed in all schools, in all legislative bodies and by many fraternal societies and by citizens generally.

The Stars and Stripes—the flag of the United States of America—flies for all the people on earth. Prince and potentate know it. Slave and serf understand it. Tropics and Arctic alike have seen the gleam of its colors.

To all the message has been the same—LIBERTY.

Commune With Nature

In those vernal seasons of the year, when the air is calm and pleasant, it were an injury and sullenness against nature not to go out and see her riches, and partake in her rejoicing with heaven and earth.—John Milton.

**Tablet Throws Light
on Noah and the Ark**

In 1872 George Smith of the British museum found an interesting tablet in Nineveh. The inscriptions were deciphered by Assyriologists soon afterward, but Paul Haupt, professor of Assyriology at Johns Hopkins university, has recently rendered a more complete translation. He first restored the tablet to make it legible. Professor Haupt told the American Oriental society at Philadelphia that the inscriptions relate the story of Noah and the ark. According to this account, Noah cut trees down in the jungle and made an ark consisting of six decks which were divided into seven compartments. Two-thirds of the ark was under water when it was afloat. Part of the translation reads: "For our food I slaughtered oxen and killed sheep—day by day. With beer and brandy, oil and wine, I filled large jars, as with water of a river."—Pathfinder Magazine.

**HOUSE CLEANING OF
OUR USED CAR STOCK**

We are trying to sell all of our used cars before July 1, and in order to move them we are placing the very lowest prices on them and if you want a used Ford car or truck, now is the time to buy.

We have three Ford ton trucks ranging from \$90 to \$225, and one of these low priced trucks would be just the thing for hauling peas, sweetcorn, cobs and husks and they are all in running order and carry the Ford used car guarantee.

**EAGLES WILL
NOT REMOVE
TO NEW HOME**

Sandusky, O., June 12, (UP) — The great American eagles, that for years have lived in the vicinity of Vermillion, east of here, are building a new nest to take the place of the old one destroyed by the high wind several weeks ago. They have however, forsaken the old home tree for a larger and sturdier one close by.

It was feared when the storm destroyed the nest, killing three baby eagles, that were in it, the old eagle would locate elsewhere, especially after Professor Francis K. Herrick, of Cleveland, long a student of bird lore and their habits, had let it be known that moving was a regular habit of the eagles.

AMUSEMENTS

Conrad Nagel can't seem to get over being Elinor Glyn hero. Conrad played "Paul," the English boy in "Three Weeks," and was taught to make love by the English authoress, and then spent two or three months as the English lieutenant in "The Only Thing" under the tutelage of Mrs. Glyn.

But he is now being cast as a heavy lover instead of the "nice" boys he has been playing for so long. In Robert Z. Leonard's "Dance Madness" Conrad leaves his wife and falls in love with a Russian siren, who spends some of her spare time appearing in the "Folies Parisienne" as a masked dancer.

One of the warmest love scenes photographed in several months takes place between Conrad Nagel and the woman whom he supposed to be the Russian dancer but who is really his wife in disguise, who, with the dancer's help, has passed herself off as the siren. The husband's eventual discovery of the fact that he has been courting his wife in the dancer's mask brings about a dramatic reconciliation between the estranged couple.

"Dance Madness" is a rollicking farce from the pen of S. J. Kaufman, and is coming to the Met theater. Claire Windsor plays opposite Nagel, while Hedda Hopper, Douglas Gilmore and Mario Carillo are cast in important roles.

At the Met theater Monday.

HARTMAN THEATER.
* * * * *

"In Love With Love," a romantic comedy, will be presented next week by the Hartman stock company at Hartman theater, Columbus, as the ninth play of the summer season. This popular comedy was first produced under the name of "Love and Learn," by George Cohan and Ruth Shepley, new leading lady of the company, created the leading role in it. Before it came to New York, Mr. Cohan had another idea and he launched a new play, "Two Fellows and a Girl," and put Miss Shepley in the leading role in it. "Love and Learn" was changed to "In Love With Love" and produced by William Harris at the Ritz theater, New York, where it had a long and profitable run.

Lynne Fontaine, Ralph Morgan and Henry Hull (Lenore Ulric's leading man) played the three chief roles in it and it was one of the successes of Broadway. Ruth Shepley will be seen in the Lynne Fontaine part, which she originally created; Donn Coon will have the Ralph Morgan role, a splendid role—that of a young bridge builder; and Neil McFee will have the Henry Hull part.

The story is one of the cleverest and most romantic of any play yet presented here. One of the finest scenes in the play is when Donn Cook, as the bridge builder, demonstrates with his tiny bridge model, just how bridges work. It is all done on a dark stage with tiny lights on the miniature bridge.

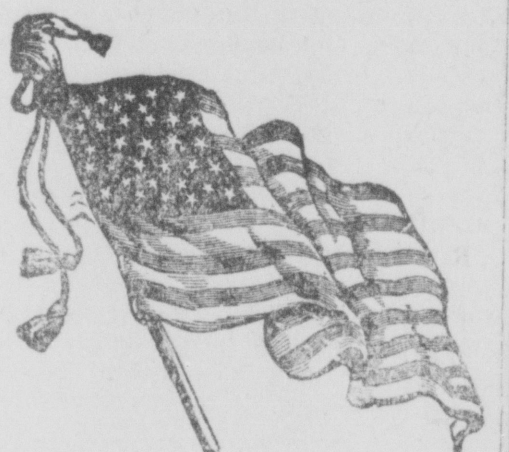

William Ingersoll, Gilberta Faust, John Lott, Georgia Neese, Elise Bristol, Martha Lee Manners and Forrest Orr will all have good roles and it is a foregone conclusion that "In Love With Love" will have the population of Columbus in love with it before the week's engagement is over.

Matinees on Tuesdays, Thursdays and Saturdays. Ladies may purchase orchestra seats on Monday nights for 50 cents. Allen Hale's orchestra plays for dancing in the foyer thirty minutes before the play and during intermissions. Season reservations may still be made to assure good locations; each week.

The eight states in the second row of stars in order are: New Hampshire, Virginia, New York, North Carolina, Rhode Island, Vermont, Kentucky, Tennessee.

The eight states in the third row of stars in order are: Ohio, Louisiana, Indiana, Mississippi, Illinois, Alabama, Maine, Missouri.

The eight states in the sixth row of stars in order are: Montana, Washington, Idaho, Wyoming, Utah, Oklahoma, Arizona, New Mexico.

Pupils in school as well as adults should be able to point to the star on the flag that represents their state in the American union.

Of his immediate family one sister survives, Mrs. Thomas Miller, of Kingston. The deceased was a farmer by occupation. He left this county for Union county twelve years ago.

Narcotic May Arrest**Ravages of Old Age**

The invention of efficient and painless narcotics for anesthesia and pain alleviation is one of the most important tasks of modern science. Recently Dr. Maurice Sandoz of the University of Lausanne, Switzerland, succeeded in producing a substance called "triciane," which, it is claimed, is remarkable for its rapid narcotic effects. On cold-blooded creatures, such as fishes, frogs or salamanders, two to six minutes in a one-tenth per cent solution of triciane, induces total insensibility.

A solution of triciane diluted beyond 10 per cent will reduce the rate of cell division in animal organisms, particularly the development of the embryo from the egg. By use of a very weak solution it is possible to keep frog eggs for several weeks without hatching. Untreated eggs left in pure water for the same period would turn into adult frogs.

These experiments, says Popular Science Monthly, have suggested a possible use of triciane in arresting the ravages of old age.

VACATION BIBLE SCHOOL TO OPEN MONDAY

The Daily Vacation Bible school sponsored by the Ministerial association of Circleville will open in the Franklin street school building Monday, June 14, at 9 o'clock. The sessions will be from 9 till 11:30, five days a week for four weeks. The co-operating churches have provided funds which makes this school possible. The school will be under the supervision of Miss Stewart, of Columbus, who is experienced in both public school and Daily Vacation Bible school work. A teaching staff has been very carefully chosen and will be on salary. It is possible in this four weeks to give as much religious instruction as is given in a whole year in Sunday school. It is not only a Bible school but a school which includes training in worship, community

pride, health, and hand work. It teaches Christian principles thru doing.

Parents who are interested in all round development of their children will consider this school a real opportunity. Wherever these schools have been held the children are enthusiastic about them and each year larger schools are necessary to take care of the increased enrollment.

This school is open to any child in the community between the ages of four and fourteen. A tuition fee of fifty cents for the first child and twenty-five cents for each other child in a family will be charged. Enrollment should be made at once.

The following enrollment blank may be used:

CRIME WAVE?

It could hardly be called that.

Yet, many a time it has been said that it is a crime to let shoes go too long before having them resoled.

Lots of good repairable shoes are lying around inactive that could be repaired and would give long additional service. This is almost criminal waste.

It is practically criminal waste to buy cheap, unrepairable shoes. our

BELSHAZZAR WEIGHED AND WAS WANTING

Tent Meetings Drawing to Close—Miller Avenue, Columbus, Chorus Sunday.

Miss Gertrude Essek on Friday night at the tent meeting preached a powerful sermon from the text: Thou art weighed in the balances, and found wanting." Daniel 5:27.

She brought the message that God had for Belshazzar years and years ago and called attention to several weights which Belshazzar lacked and which caused him to be found wanting. He lacked the weight of reverence, the weight of a personal God, the weight of righteousness and the weight of a penitent heart. God had visited him; he had warned him, but instead of turning from his sins his heart hardened and he failed to repent.

Services tonight at 8 o'clock. Sunday school Sunday morning at 9 in Calvary church. Preaching at 10:30 in the tent in charge of the quartet. Preaching service Sunday afternoon in the tent at 2:30, also in the evening at 8 o'clock. This is the last day of tent meetings. Let's make it the best day; really a day for God. We expect the Miller avenue chorus of Columbus with us for the afternoon service. Free will offerings to be taken Sunday for the quartet. Come well prepared that we may at least try to show our appreciation of the splendid work they have rendered.

MILLER HUGGINS

Has His Yankees Well Out In Front In Junior League.

(By Paul W. White United Press Staff Correspondent.)

New York, June 8.—A year ago when the Yankees were headed nowhere in the American League and were battling to remain out of the basement, one man was blamed for the tremendous flop and that man was Miller Huggins.

Today the Yankees are at the top of the Junior circuit and stand an excellent chance to hang on to that precious position, but in the comments on the form reversal one hears nothing about the same Miller Huggins, who has continued as the pint-sized manager of the Yanks.

Huggins probably would be the most tragic figure in baseball if he believed one-tenth of the diatribes directed against him. As it is he fails to inspire praise and offers an excellent target whenever anything goes wrong.

A man who has managed a team winning three pennants and a world's series in three years might be expected to draw the plaudits of a hero. But not Huggins. The attitude of sports writers and the general public seemed to be that the Yankees were victorious in spite of Huggins rather than because of him.

And last year's debacle seemed to confirm the impression that the Yanks as a team depended wholly upon the antics of Babe Ruth and that any bush leaguer could make more of a success than Huggins.

This, as said before, is another year. Col. Ruppert, the genial owner of the Yankees, always has had oceans of confidence in "Hug" and this confidence appears to have been well placed.

A great deal of the 1926 success of the Yankees, certainly must be laid to Ruth's reformation. But aside from the great slugger the New Yorkers have a powerful team and one wonders if Huggins shouldn't receive some of the glory.

The charge has been made frequently that Ruppert has bought winning teams but this year it is noticed that six regulars were developed in major league baseball by Huggins. These are Meusel, Combs, Gehrig, Koenig, Lazzeri and Collins. This sextet is worth a lot more money than any club owner could furnish on a moment's notice.

Huggins is not too popular with his players. He is far from cheerful and is quick to describe in detail what he considers the faults of his men. But even when the public was calling for his scalp, the team for the most part stood by him.

FORTUNE IS BEQUEATHED TO CHARITY

Jeremiah E. Barnhart Will Probated In Court Wednesday—Relatives Left Out.

An unique and unusual document was filed in the office of Probate Judge Elijah Cutright Wednesday.

The will filed was that of Jeremiah E. Barnhart.

The bulk of the estate was left to the Chillicothe city hospital. One bequest to the hospital will consist of \$15,000 to be held intact for a period of three years. At the end of this period an annex to the building to be known as free ward is to be constructed.

Another bequest of \$20,000 is made to the hospital. This sum must be kept intact for a period of 25 years, the proceeds to be used to support the free ward.

All of the bequests were made in the form of bonds.—Chillicothe News-Advertiser.

YOU CAN'T HIDE A FARM IN A SAFE DEPOSIT BOX

"How much would you take for your farm?"

"It isn't for sale."

"Don't blame me! If I had it I wouldn't want to sell."

"Did you ever stop to think that you might be forced to sell or mortgage the place, to hand the money over to someone who was injured by one of your cars?"

"You know how crowded the highways are. You run the risk of accident every time one of your cars leaves the yard. I say you, because, no matter who may be driving the car at the time of the accident, you, as owner, will be the man held responsible."

"Right after an accident there is a distinct disadvantage in owning a prosperous farm. It cannot be conveniently hidden in a safe deposit box. It is evident to all who pass. As a consequence, if someone is injured by one of your cars, he's likely to say to himself: 'That fellow is good for any judgment I can get against him. I might as well ask for a large sum.' And suddenly you find yourself sued for \$25,000 or \$50,000."

Would you care to have a jury of twelve men, picked up here and there around the county, deciding whether or not you should keep your farm? "Even if the claimant is not given all he asked, you would have been put to the great worry and expense of defending the suit; during which time your regular work is sure to suffer."

"Let me fix you up with Automobile insurance, which will protect your interests if an automobile damage suit is brought against you; pay the court and defense costs, if the case goes to court, and protect your farm, by paying the judgment up to the limits of your policy, if one is rendered against you."

MYERS Y. COOPER IS ACTIVE IN RACE FOR GOVERNOR

Republican Candidate Pledges Honest Business Administration—Is Widely Known in Commercial and Public Affairs.

To give Ohio a "sound business administration based on constructive efficiency and wise economy" is the pledge of Myers Y. Cooper, Cincinnati business man and candidate for Republican nomination for Governor. Cooper's brilliant career, from its humble beginning as the youngest of a family of eight children on a barren hillside farm in Licking County to his present position as head of one of the largest home building organizations in the country and presidency

of several successful financial and industrial institutions, would indicate his ability to successfully carry out this pledge.

While he has never held political office, Cooper for many years has devoted himself to public service. For ten years he has been president of the Ohio Fair Managers Association, an organization combining all the fairs throughout Ohio. He is president of the Ohio Council of Churches succeeding ex-president W. O. Thompson of the Ohio State University, and ex-President Harvey S. Firestone, Akron rubber manufacturer. He is a trustee of Lincoln Memorial University.

The Cincinnati Enquirer, in vigorously advocating his candidacy, speaks of Cooper in the highest terms, declaring him "to possess all the qualifications for clean-cut administration of public affairs and Party leadership." The Hamilton Daily News refers to him as a man "to inspire confidence and assure success for the Party." "Of all the candidates mentioned," the Lima Morning Star asserts, "Cooper is the one who measures up to the qualifications of a victorious standard bearer." The Labor Advocate of Cincinnati in supporting Cooper says that "as an employer, Mr. Cooper has been kind, patient and extremely fair with all of his workmen." Various other newspapers point to this Hamilton County aspirant as the strongest available Republican candidate.

Friends close to the Cooper Movement state that work of perfecting a state organization is nearly completed and the active campaign is about to start. Mr. Cooper's campaign will be militantly and actively conducted from now on.

HOW ENDLESS CHAIN SELLING PLANS ARE USED TO ROB SAVERS

W. R. Morehouse Continues His Exposures of Modern "Gold Brick" Schemes—American Bankers Association Official Tells How Life-Time Savings Are Wiped Out.

By W. R. MOREHOUSE,
Public Relations Commission, American Bankers Association.

ARTICLE NO. II

I FIRMLY believe that promoters and high-pressure salesmen are becoming more and more crafty. Shrewd ways are being resorted to in order to trap the novice investor. It is deplorable that the investor does not profit by experience and is victimized a second time in his endeavor to recover that which he has already lost. It is the old, old story of trying to recover, but in the attempt losing. This very hour thousands of hard-earned dollars have slipped from the grasp of the calloused hands that earned them into the clutches of unscrupulous skin-game artists. Tomorrow the scenes of today will be re-enacted with a new and larger list of victims. A month from today depositors will still be pouring an ever increasing volume of their savings into the hopper of unwise investments. A year from today the same tragedy will be re-enacted unless our savings bankers come to the rescue and help to stop this nefarious business of defrauding and swindling our savers of the fruits of their labors.

W. R. Morehouse

Here is a typical case. A group of men undertook to promote a vending or self-serving machine. Their plan called for the sale of \$37,000,000 worth of leases in the United States. Similar projects previously started throughout the United States had failed. As a matter of fact, the average daily sale of one of these self-service machines was only \$3.10, which in itself made it impossible for a machine to produce sufficient revenue to make it profitable. Servicing the machines was another obstacle which had not been successfully overcome. In three months the promoters were successful in selling over \$2,500,000 worth of rights to use these machines.

\$40,000 in Savings Lost by One Man

I know of one man who withdrew \$40,000 from a savings bank and invested it in this promotion. He told me it represented the accumulations of a lifetime. "And now I have lost it all," he said in a trembling voice. "I haven't a cent left and I am past sixty years of age—too old to work!" he added.

Of the more than \$2,500,000 invested by savers, over \$1,000,000 was taken by these wily promoters as commission. Think of making a commission of over \$1,000,000 on \$2,500,000 of sales in about three months' time! Think of what this more than \$1,000,000 of commission represents,—think of the struggles and the sacrifices of the men and women who saved it! With some it was saved penny by penny over a period of years. Think of the sorrow it caused,—the heartaches, the misery and the disappointment which followed in the wake of the collapse of this promotion. Think of the old man who lost \$40,000—all he had been able to save during his lifetime. Think of the widow's mite, for she lost it also. All that is left today of the original investment is less than 10 cents on every dollar.

Here is an endless chain scheme which relieved working girls of a portion of their savings. The loss ran into many thousands of dollars. The scheme is to sell silk hose to girls by getting them to act as selling agents.

STRAIGHT TALKS WITH AUNT EMMY

ON SAVING TO INVEST

"You have talked so much about saving, Aunt Emmy," said Hilda to Aunt Emmy, "that I wonder if you will be kind enough to help Jack and me work out a way to save regularly. We do so want to get ahead. As Jack is getting a little more money this year, we plan to save that and keep right on living on what we got last year. Of course, it is hard to do without a lot of things we might have, but then Jack and I both feel that we don't want to be worried about money. If we have a little reserve fund, we can be prepared for emergencies."

"Bless my heart!" exclaimed Aunt Emmy. "It surely does sound good to hear such sensible talk from a youngster these days! I'll tell you what I think is a good plan for you to follow,—open a savings account with a bank that has a thrift department and every week put away a stated sum in your savings account. You will receive interest on this money, you know. Of course you receive only a moderate rate of interest on your savings, so it is a good idea to make a definite investment plan and invest your savings in sound securities that will yield a higher rate of interest."

"Accumulate your money, small sums at a time, in your thrift or savings account. Determine what sum you will use for your initial investment, say, \$100 or \$500. Save until you have twice that amount. If you decide to begin your investment on \$100 save \$200, then take \$100 and buy a baby bond, or buy a large bond on the installment plan and apply the

WASHINGTON SPECIALS

Washington, June 10.—(UP.)—Appropriation of \$200,000 for Ohio River work to protect the "Kentucky peninsula" bend and maintain the channel of the Ohio River at Evansville, Ind., was recommended today by the chief of army engineers and approved by the Secretary of War.

The senate commerce committee decided today to act quickly on the rivers and harbors bill in order that it may be brought before the senate for consideration this season. The committee voted 10 to 2, Willis and Couzens dissenting, to begin hearings at 10 a. m. tomorrow also to meet Saturday.

With the White House already listed by army engineers as urgently in need of repairs to guard against potential disaster, the president's church, the First Congregational, in the heart of the capital, today was closed as "unsafe for further church purposes." A condemnation committee warned that a disaster might result if the ancient structure continued to house crowds thronging to see the president at worship. One woman, sitting within fifteen feet of the president's pew, was made unconscious by falling plaster recently.

BANK BANDITS ARRESTED

Dayton, Tenn., June 10.—(UP.)—A few hours after they had robbed the bank of Graysville of \$1,000 in currency and a quantity of jewelry, Vernon T. Gadd and Martin McClure, of Toledo, Ohio, were in jail here.

News of the hold-up yesterday was sent over the entire state and the two youthful bandits who had deserted their own car and commandeered one driven by Homer King, a confederate war veteran, were captured as they neared this city.

The youths are said to have admitted their guilt and offered to lead officers to the place where they threw the jewelry from the car.

Bread provides the best basis for a good, wholesome diet for the growing children, and Wallace's Twin Loaf is of especially high quality.

Wallace's Twin Loaf, itself, is its own recommendation—the finest, pure ingredients baked to a nicety by experts—the loaf is delicious and easily digested.

Give your family a good foundation for the future—Wallace's Twin Loaf is the answer.

Ask for it at your grocer's. He'll be glad to serve you.

HANDSOME CARGO OF LIQUOR SEIZED

Cleveland, June 10.—(UP.)—The "Brisk," a launch carrying 650 quarts of whisky was seized by Sheriff Edward Rassmussen and two deputies at Mentor-On-the-Lake today, according to advices received here. Two men were arrested.

The men taken into custody said they were Jack A. Baxter, who admitted ownership of the whisky, and Edward Hardy, captain of the launch. Baxter, according to advices, said he planned landing the liquor cargo at Pelee Island but had been warned hi-jackers were ambushed there, prepared to raid him.

The cargo was being unloaded when Rassmussen and his deputies arrived. Later Baxter and Hardy were arraigned in Painesville. Each paid a \$750 fine, it was said.

The Brisk was confiscated and will be sold at public auction.

"Mothers Prize the HERRICK"

The HERRICK brings freedom from worry about food spoilage. Moisture cannot form in a well-iced HERRICK. In constant cold air circulation prevents odors, taint or decay. It is easy to clean and inexpensive to ice.

HERRICK OUTSIDE ICING permits regular icing without bothering the housekeeper and without "tracking" on the kitchen floor. It affords iceless refrigeration in cool weather. The HERRICK Water Cooler attachment provides ice water—untouched by ice—at the turn of a faucet. Connects with your regular water supply.

EARLY AMERICANS ON PACIFIC COAST

The Columbia river region of the state of Washington harbored one of the densest populations in prehistoric North America, in the opinion of a Smithsonian scientist now making a survey of the pit house sites of the old Yakima and Klickitat Indians. Herbert W. Krieger of the National museum reports to Dr. J. Walker Fewkes, chief of the bureau of ethnology, by whom he was sent out, the existence of a chain of house sites stretching for 500 miles along the banks of the Columbia from the Dalles in Oregon to the Canadian border.

"I think it is safe to say," Mr. Krieger states, "that before the coming of the horse, the Columbia basin was one of the most densely populated sections of North America. The Columbia links up with other northern highways and was undoubtedly one of the great trading centers and routes of travel. Furthermore, food was abundant along the Columbia, elsewhere it was scarce."—Scientific News Service of the Smithsonian Institution.

Numbers World's Jews

How many Jews are there in the world? According to the expert. Doctor Lestschinsky, there were in the world only a few more than 14,000,000 in 1925, and the rate of increase is not great. Of the total, the vast majority, namely 9,232,276 live in Europe. America has only 3,844,089, and Asia, Africa and Australia insignificant numbers. In 1897, Europe contained nearly 84 per cent of all the world's Jews; today it has only 63 per cent. The Jewish movement toward the new world is distinctly visible. Now the Jews in America are 2.1 per cent of the total population.

Democratic Scandinavia

Airships and Great Guns

According to the occasionally reliable Moscow newspapers, the United States has the greatest military aviation service in the world. Russian newspapers now describe two American dirigibles, each mounting 20 cannon. The United States also has 14,000 military airplanes, according to the information on which the Russian commissar of war and navy bases his comparison to show the needs of the Soviet union. Though giant dirigibles capable of mounting 20 machine guns have not progressed beyond the drawing-board stage in the navy department designers' office, they have become an actuality in Russian news papers that have printed pictures of them, cannons and all. "A country where peace is highly esteemed!" is the sarcastic line of explanation under the pictures.
